Professional Summary

- Total 1+ years of work experience with experience in python development as **Backend Developer**.
- Extensive work experience in web development using Django, REST API (DRF), Signals, Threading.
- Worked on the **databases** such as Postgres and MySQL
- Experience in **python** libraries like Django, Pandas, Numpy.
- Good working experience in **front end** technologies like Reactjs(Basic), Angular(Basic), HTML, CSS, Bootstrap.
- Have hands on **ML Technologies** like Scikit-Learn and tensorflow (with pre-requisite)

Skills

- **Language:** Python
 - **Machine Learning:** TensorFlow, Scikit-Learn, Numpy, Pandas
 - **Web Development:** Django, Django Rest Framework
 - **Testing:** PyTest, Unit Testing
 - **Scripting:** Javascript, Typescript
 - **Database:** MySQL, Postgres
 - **Tool:** Git
 - **APIs:** REST, Google API, firebase, ZOHO
 - **Payment Gateways:** Stripe, Razor pay
-

Work Experience

1. **BaryTech, Germany (Remote) - Software Developer Full Stack** (Aug 2022 – Present)
 - Project development.
 - Developing APIs.
 - Maintaining database.
 - Integrating s3 service of **AWS** with the project.
 - Handling Git branches and commits of different branches.
 - Creating Frontend for the email templates.

Project –

(i) EINO : Project that stores documents in one QRcode and can be shareable via scanning qrcode.

Responsibilities:

- Created APIs for the project.
- Maintained the Database for the project.
- Integrated Zoho APIs for the project.
- Maintained git branches for proper commits of the code.
- Developed python scripts for s3 functionalities.
- Manual Testing of APIs.

(ii) EINO Affiliate: Referral Program for Users in which a user(becomes affiliate user) can earn money if whenever a user he referred buys anything from **EINO**.

Responsibilities:

- Created APIs for the project.
- Created scripts for calculating Total Credits for all users who earned from all referred users.
- Created functionalities so that the affiliated user can earn from every user he referred through a referral code or referral link.
- Created functionalities to retrieve various types of data through APIs to integrate with charts.
- Created scripts to update the affiliate user table whenever a referred user renewed the purchases.
- Maintained the Database for the project.
- Integrated Zoho APIs for the project.
- Maintained git branches for proper commits of the code.
- Developed python scripts for s3 functionalities
- Manual Testing of APIs.

2. IncuPad India Pvt. Ltd. (New Delhi, India), - Full Stack Developer (Apr 2022 – Jul 2022)

- Analysis of project requirements, preparing schedule for component deliveries.
- Learning new tools for upcoming projects and providing training to the team.
